

EMBRACE THE STEM IN YOUR LIFE WITH SOMERSCIENCE 2025!

Somerscience is delighted to invite you to our 3rd festival celebrating all aspects of science, technology, engineering and mathematics (STEM) in Somerset. STEM is about life and what we do with it. It helps us look after and understand our world and harness natural resources to build a better version or cyber alternatives.

Our whole programme is FREE with no tickets required.

Start to grow your **STEM** profile at **Haynes Motor Museum** where our contributors show you how your lives are affected by **STEM** research and applications, how they go about investigating and innovating, and how you can get involved in a future study or career pathway.

You might want to take part in experiments or interactive demonstrations in the **Science Fair** Zones; take in a show or two; get hands-on in a workshop; explore your health in the Merlin room or sit in on a talk on a subject of interest. Or look after your nutrition at the food outlets on site and nearby.
